"Our Town"

by J. B. WHITE

Success with glamor and romance gives human drama the touch that keeps the fires of ambition burning brightly. Many stand one day at the foot of the mountain to look up the heights and to measure their strength against walls of stone. All the World loves a winner. This bit of romantic talk about Joe Moore of Gause, outfielder for the New York Giants, in the Houston Press, deserves this place and we give it the column.

A barefooted country boy pulled the blonde-haired pig-tails of a calico dressed girl one day in a Milam County schoolhouse.

Today, that little girl of a Gause merchant is Mrs. Joe Gregg Moore and that little barefooted boy is one of the classiest outfielders in the National League, playing for the league championship New York Giants.

Mrs. Moore, still as comely as that girl of not quite too long ago, is here visiting her sister, Mrs. Philip Johnson of 2040 Colquitt avenue. From here Mrs. Moore will go to Gulfport, Miss., to join her husband. She will go north with him in easy stages as the Giants tour the tank towns.

The step from Gause, a sprawling village in Milam County, to the bright lights of Broadway was quite a huge one but Mrs. Moore and her "baseballin'" husband took it in their easy going, Southern style.

Joe Gregg, as he is known to his numerous aunts and uncles in Gause, was quite a baseball player before he went to the Giants. He played in the Texas League and other minor leagues before attracting the eyes of a Giant scout and going to the baseball players' "Heaven."

The home they live in in New York is much larger but is not as comfortably fixed as the little yellow brick bungalow that sits just the other side of the railroad from the main part of town in Gause.

While in New York, the Moores live in Hudson View Garden. There Mrs. Moore whiles away the hours and days and the months waiting for the season to end and for Joe Gregg to again pound the old horsehide over the .300 mark.

The season over, the Moores re-joycefully depart for Gause and the little brick bungalow that to them is the "home of homes." Home and rest, that is what Joe Gregg wants.

His method of resting is just about the same as any other baseball player who is a success in bigtime competition.

He has bought a ranch, an extensive ranch that would make the neighbors jealous if they didn't love him as "the boy that made good." On this ranch Joe Gregg hunts and fishes and herds the cows.

From the trips that Gus Mancuso, Watty Watkins and Frank (Pancho) Snyder make to the ranch every winter, the hunting and the food is fine. Golf forms a good part of the recreation, too. Joe is a good golfer, making tough courses in the low figures.

A large slice of Joe Gregg's recent World Series money went into real estate—he added another huge piece of land to the already large ranch. The ranch herds will be increased each year, Mrs. Moore said wistfully as she seemed to envision a far-stretching ranch.

Mrs. Moore has the idea that all good farmers and ranchers have.

Blast Victim Buried In Cameron Saturday

The body of Mrs. John W. Gore, 33, found in the ruins of the New London school building following the gas explosion that took the lives of more than 500 school children and teachers Thursday, was brought to Cameron Friday morning for burial.

Funeral services were held from the residence of her parents, Mr. and Mrs. Horace E. Graham. At the Methodist church Rev. J. Coy Williams and Rev. Vernon G. Miles of the Baptist Church, conducted the services. Interment was made in Oak Hill Cemetery on Saturday afternoon.

Mrs. Gore was teaching history in the sixth and seventh grades in the New London School. Her husband, John W. Gore, former superintendent of the Middleton Refinery in Minerva, is employed by a refinery in the East Texas oil area, and was at their home near the campus when the explosion wrecked the building.

Mr. Gore was knocked to the floor

from the blast, several blocks away. When he regained his senses he realized what had happened and went to the building to search for his wife. He went directly to her class room and found that it had been only slightly damaged. Pupils told him that Mrs. Gore had gone to another part of the building a few moments before the blast, or to her home.

Three times Mr. Gore ran from the building to his home and back again. On his return to the building he went into the ruins and found the body of his wife, crushed beyond recognition. For more than an hour he worked to remove heavy debris from her body and finally sought aid to carry her to the home on an improvised board stretcher.

With scarcely more than intuition to guide him, he soon verified his belief that this was the body of his wife. He found her wedding ring.

Miss Rine vanquished opponents from Indiana, Minnesota, Iowa, Illinois, Michigan, Ohio, New York and Missouri. Miss Rine received a \$100 prize and will make a trip to Washington to meet President and Mrs. Roosevelt.

CRASH VICTIM MAY NOT SURVIVE HERE

Mrs. Homer Holder of Lampassas was so critically injured Tuesday in a car wreck near Gause that she was not expected to recover, it was announced here Wednesday at noon.

Mrs. Holder is in a local hospital with a fractured skull and internal injuries.

Homer Holder, the husband, was not so critically hurt and was able to be about the hospital.

Marshal Weems, truck driver for the McLane Company, escaped with minor injuries. All were rushed here for treatment.

The accident occurred on Highway 13 when the Holder machine side-swiped the truck. It was said here that the steering gear of the auto went out of control as the car was passing the truck.

FARMERS TO RECEIVE POOL COTTON CHECKS

The Milam County Agent has been advised by the Assistant Manager of the Cotton Producers' Pool that all of the Pool Cotton has been sold. From the proceeds of the sales there has been distributed \$27.50 per bale, in addition to the first \$30, which was the cost of the option. The expenses of Pool operations, including storage, insurance, handling and administrative expenses, must also be paid from the sales proceeds.

The Pool accounts are now being audited and it is apparent that when all the Pool obligations have been paid, there will be no remaining proceeds from which payment can be made to holders of C-51 Certificates.

CITY WITHOUT AUTHORITY TO ORDER SCHOOL BALLOT

In an opinion to the School Board read at the meeting Tuesday night, Attorney General William McGraw, said the city council was without jurisdiction to call an election to name school trustees.

The opinion results from the recent action here of the people to stop the appointive system and elect by ballot, thus divorcing the school from the city.

The board issued an election order calling the election for April 3rd as

had been originally done by the city council. Thus it has developed that the school is now an independent political unit and its affairs are lodged solely under control of the trustees.

Superintendent Perrin said that all names filed with the City Secretary have been ordered printed on the ballot and it will not be necessary for candidates to file with the school board secretary.

J. R. HAYS NAMED C. C. HEAD HERE

John R. Hayes, local postmaster, was named president of the Chamber of Commerce on Tuesday night at a meeting of the Board of Directors.

Others named are: W. S. Barron, Bryan; Doswell Porter, Caldwell; E. W. Harris, Navasota.

Lesser Newton of Milano was named Secretary to succeed himself. The association has almost a million dollars in loans to farmers in six counties.

HIGHWAY PATROL BILL PASSES TEXAS HOUSE

The Newton and Newton highway patrol bill has passed the house of representatives without amendment. It was introduced by Representative George Mayo Newton.

In the senate the same bill has been introduced by Dr. W. R. Newton. The bill, according to Dr. Newton who spent the day here on Sunday is in no way connected with railroad or truck legislation but is a safety measure to keep down accidents.

"Texas highways are inadequately policed and I feel certain that if the patrol is increased our roads will be made safe for travel."

With approximately 6700 vehicles affected by the registration law, car owners of Milam County have returned to the Highway Planning Survey only 113 of the post cards that were handed to them at the time they paid their 1937 automobile license fees at the office of W. A. Bonds, County Tax Assessor and Collector.

Car owners of Milam County have failed to respond to pleas of the Highway Planning Survey to provide information on which the highway programs of the future will be based, a tabulation of returns received to Wednesday disclosed. The number of car owners sending in information on cards received when they registered their vehicles is insufficient to provide an accurate picture of the road needs of this County.

The last date to file was March 20th, and not Saturday, March 27th, as printed. The error was made in the office of the publishers and no other source was responsible.

PUBLIC INTEREST DEMANDS FAIR PLAY!

Texas, now has good state laws for the regulation—in the public interest—of all transportation. These laws are helping to stabilize transportation, and all business and industry that has to use transportation. These laws are helping to reduce the terrible accident toll on your highways. They are helping to conserve your investment in your highways.

Regulation of transportation in the United States has been developed over a period of fifty years. Reasonable regulation is admitted to be both advisable and necessary in the public interest.

Strict regulation of one form of transportation and the lessening of regulation of any other form is unfair and un-American, and can only result in crippling that part of your transportation facilities which is handicapped—

without any resulting benefit to the people of Texas.

Texas railroads obey the rules of the game,—those imposed by the agencies of government and those taken on voluntarily in the interest of public safety.

Texas railroads are spending this year, large sums of money for new and modern equipment—locomotives, freight and passenger cars, improved rail and roadbed facilities, and are expediting freight and passenger schedules to meet growing public demands. All of this is being done in the interest of improved service to the public and at the lowest rates in twenty years.

All the railroads of Texas are asking—have ever asked—is a FAIR DEAL in a fair field.

CAMERON THEATERS

By C. W. GJEDDE

"LOVE IS NEWS"

The romance of a thrilling three some whose kisses crash the headlines and whose escapades sell extras, with handsome Tyrone Power out romancing his "Lloyds of London" role, lovely Loretta Young bringing her fresh charm to a portrayal that is enticingly different, and Don Ameche creating a dashing new screen characterization, provides hilarious excitement in the Twentieth Century-Fox streamline hit, "Love is News," coming to the Cameron Theatre Sunday and Monday, March 28 and 29.

Slim Summerville, Dudley Digges, Walter Catlett, George Sanders, Jane Darwell, Stephin Fetchit and Pauline Moore are featured in the cast, while Tay Garnett directed.

"OFF TO THE RACES"

That happy, scrappy Jones Family, a household as real as your own and as funny as your neighbor's, moves into a new and hilarious phase of its career in "Off to the Races," fourth in the series of Twentieth Century-Fox picture of the Jones family, which will come to the Cameron Theatre Saturday, March 27.

When Uncle Slim Summerville

and his horse drop in on the Jones, the shenanigans begin, and the typical American household is off on the most laughable, side-splitting time it has ever experienced. Add, for good measure, Slim's provoking daughter, Ann Gillis, a meanie from the word go, and you have a rough idea what the harried Jones Family is up against.

All the players who have made the Jones Family the country's best-loved clan are here again—Jed Prouty, Shirley Deane, Spring Byington, Kenneth Howell, George Ernest, Jene Carlson, Florence Roberts and Billy Mahan—and Russell Gleason makes a new heart interest opposite lovely young Shirley Deane.

"ONCE A DOCTOR"

"Once A Doctor," a First National Picture, featuring Jean Muir and Donald Woods is scheduled to show at the Cameron Theatre Wednesday March 31.

Woods plays a young physician who is the adopted son of Joseph King, a middle-aged practitioner of considerable fame. King has another son who's a doctor—a ne'er-do-well, portrayed by Gordon Oliver.

This lad is engaged to Jean Muir

who is the daughter of still another physician—a great brain surgeon, Dr. Nordland, played by Henry Kolker.

Donald Woods worships Jean but doesn't let her know it. Foolishly, he takes the blame for various blunders that his foster brother, Oliver, makes, and eventually is driven from practice, indicted, and sentenced to serve a jail term.

The great Dr. Nordland, whose brain surgery Woods has been studying, gets a parole for him and sends him to Cuba to work in a dispensary. He sets forth on a freighter.

During the height of a great storm, wireless word comes to the freighter that Dr. Brace, his benefactor, has suffered a brain fracture on his yacht. Courageously Woods transfers from the freighter to the yacht across raging seas, and on the tossing boat performs the operation he has learned from Nordland. He saves Dr. Brace's life—of course winning the love of Miss Muir, who by this time has learned that her fiance, Oliver, is a rascal.

"STOLEN HOLIDAY"

"Stolen Holiday," a hit film of the season, starring Kay Francis and Ian Hunter, is scheduled for the Cameron Theatre Tuesday, March 30.

"THEODORA GOES WILD"

"Theodora Goes Wild," a Columbia picture with Irene Dunne and Melvyn Douglas, supported by Thomas Mitchell, Thurston Hall, Rosalind Keith and Spring Byington, brings to film fans of the Cameron Theatre on

Bass

(Continued from page 1)

show that less money was spent on streets during his term of office than any other street commissioner. This, he said can be verified by consulting the records of the city Secretary.

Some of the streets named by Mr. Bass as having been brought into a state of use from long neglect are: Street in Santa Fe town; street adjoining the Mondrik home in West Cameron, and the street leading from the city to Wilson-Ledbetter Park. He said that every effort is being made to keep the streets in good condition at the least possible cost to the tax payers.

Mr. Bass said that he was among the first citizens to advocate the new Athletic Field and the Wilson-Ledbetter Park and as a civic minded citizen he has worked for the improvement of the city in many ways not required of him as street commissioner.

Mr. Bass wants the people to know that he will appreciate their support and asks for the votes of all the people. He promises that he will continue to work for the best interests of the city at the least possible cost to tax payers.

and also on the body a small fragment of a dress he had chided her about that morning before she left for school. The dress was of bright colors.

A wrist watch and necklace was blown from the body and through a wall of the building. The stricken husband took up a lone vigil at the side of his dead wife, remaining by her body until 2 a. m. Friday when the parents, Mr. and Mrs. H. E. Graham and their son, Gillis Graham, arrived from Cameron.

In historic Oak Hill in the soft From a morgue in Tyler the body was brought to Cameron early Friday in a Leland Green ambulance.

At the Graham home all day Friday and until the funeral hour Saturday afternoon hundreds went in silent sorrow, little realizing the horror that gripped the nation in the greatest modern disaster, but remembering one whom they had known in life and in this community.

In historic Oak Hill in the soft sunlight of late afternoon the body was buried in the family plot. Mingled with the tears of the family was the grief of hundreds of Milano county people.

Mrs. Gore is survived by her husband, John W. Gore; father and mother, Mr. and Mrs. H. E. Graham; four sisters, Mrs. Kerna Hayes of Hearne, Ima, Rebecca and Vita Graham of Cameron; four brothers Gillis and Byron Graham of Cameron; Wilder Graham, now a student in a Kentucky College; and Merns Graham, also in school in Tennessee.

Mrs. Gore graduated from Yoe High School and received her B. A. Degree from Texas A & I College in Kingsville.

EDITORIAL

"John, how do you account for the
black eye?"

"Oh, just got in a little scramble
the day of County Meet."

"Oh-ho! So you're the guy we
heard getting socked! How'd it all
happen?"

"Well, if you must know. You see,
that cock-eyed referee called a foul
on a man, and I'll eat that post over
there if he didn't call it in favor of
the opposite team. We lost just by
one point! All on account of that
goofy guy! I told the other team
about it, too—made 'em sore, and they
gimmie what I got now—the colored
eye."

"That's th' way with these referees;
they always call in favor of the other
side. We'd won if even we'd got a
referee. That's a cinch."

Yes, indeed! It's always the referee's
fault if you lose and always to
your credit if you win, just as in
school—if you flunked, the teacher
flunked you; if you passed, you did
it; if you wrecked the car, the other
fellow hit you; if you made a narrow
escape, you were the one who pre-
vented the collision—always your
credit if you won—always the other
fellow's fault if you lost.

Poor referee! He usually leaves
the field with more enemies than
when he went on. Though he is sin-
cere in his decisions, someone must
and always tries to make a belliger-
ent affair of a contest. His keen eye
(so he imagines his is) catches the
little things the referee doesn't. In
fact, such wise persons should be on
the field calling the game themselves.
Though the referee has coached games
of the kind before, you who, more
than likely have never played the
game, just must tell the referee what
he called wrong.

After all, it's not who won, but
how you played the game. Those who
participate and those who watch
should equally control their tempers.
It's hard, but that is a mark for the
best when one does. Of course, the
referee isn't perfect; neither are you,
neither am I, neither is any one in-
fallible, but whereas the referee sees
one point in favor of the other side,
he sees the next point in favor of the
side you are boosting. Remember,
he's not on the court to oppose you or
favor the other team; he's going to
be fair and square in judging as he
knows and sees best. Let's be as fair
and square as he tries to be, and
County Meet on March 26 and 27, will
find us remembering each other for
his sportsmanlike behavior.

F. F. A. RETURNS FROM FORT
WORTH STOCK SHOW

From the four corners of Texas,
Future Farmers of America rolled
into Ft. Worth last Saturday, and
when all noses had been counted,
6668 members had passed into the
grounds to view one of the biggest
live stock shows held in the nation.
Future Farmers swarmed all over
the Stock Show grounds, into the
livestock barns, onto the carnival
grounds, up in the stands of the rodeo
arena—where ever there were sights
to see, Future Farmers could be
found in large numbers.

Twenty F. F. A. boys from Cam-

eron left home at 5:30 Saturday,
arrived at the grounds shortly after
ten, and returned to Cameron Sunday
afternoon, arriving at 5 p. m.

Breckenridge, Van and Tolar, with
more than seventy boys each, had the
largest delegations at the show.
Thorndale, Buckholts and Rockdale
had delegates from Milam County,
also. Fabens, a school 30 miles west
of El Paso, came the greatest dis-
tance to see the show.

THE WASHINGTON STAGE

REVIEWED BY
W. R. POAGE
OUR CONGRESSMAN

Washington, D. C., March 15, 1937.
The House passed the Vinson Coal Bill last week after two days of debate. This bill is in effect a rewrite of the now famous Guffey Bill with those provisions that were previously held to be unconstitutional stricken out. It is astounding to me to hear Members of Congress get up and state that they knew that the original Guffey Bill was unconstitutional when they voted for it but that they now believe we have a constitutional bill. I, at least, think, the present bill may be constitutional although it is clearly on the line itself. However, I feel that a member should not vote for a bill unless he at least thinks it is probably constitutional. Certainly no member is in a position to give enough study to any bill to pass mature judgment on its constitutionality and if it seems probable that the bill is valid I give it the benefit of the doubt, but where there is no doubt I feel that I am forbidden by my oath of office from voting for a measure I know to be unconstitutional, yet I have talked to dozens of members since I have been here who openly state that they voted for measures they knew were unconstitutional. This coal bill attempts to apply a kind of code to the soft coal industry through the establishment of a Soft Coal Commission. This Commission will exercise a general control over the industry including the fixing of prices of that part affecting interstate commerce much as the Interstate Commerce Commission regulates and fixes rates of interstate common carriers. It does not affect our section very materially but it is a great importance to the East and as all sides seem to want this kind of legislation I voted for it.

The Senate was not in session much last week as it has started hearings on the Supreme Court Bill. I have not had an opportunity to hear any of the proceedings but I understand they are drawing large crowds and many Members of Congress are giving little attention to any other business, regardless of its importance. As one of the national legislative offices reported to its members "The present Congress started off with a bang, real progress was expected, then came the question of the Supreme Court and something happened, activity in all other directions ceased, and from present indications, it will remain dormant until this question is settled. It is for this reason that I cannot report more favorably on the legislation in which we are all vitally interested." And I feel very much as he does, I think it is most unfortunate that we should allow the Court question to hold up action on such questions as home-ownership and farm tenantry, but that is what is happening and I am afraid that we may be here all Summer, before we have an opportunity to act on such important legislation.

However, not everyone has taken off to listen to the Senate. The House has started debate on the Neutrality Bill and I trust that it will pass this week. It will then go to a conference committee. In the meantime the committees are still working. Last Thursday night I attended a meeting with a rather small group especially interested in the tenantry question and listened to Dr. Alexander of the Resettlement Administration. After his talk we all asked questions and I am sure that the Resettlement Administration has in mind a great and complicated set up whereby the gov-

ernment will buy land and then parcel it out to clients in a manner that will cost the government hundreds of millions of dollars, enriching a few people who have land to sell and provide good jobs for a large force, but I fear that it will do little toward helping a tenant buy the place he wants to buy. I think we should be more interested in loaning the tenant money to buy the home of his own selection than in providing good paying government positions for men to buy large blocks of land at fancy prices, but the first thing many of the bureaus and departments seem to think of is 'how many new positions will you create?'

CAMERON TRACKMEN TAKE FRIDAY MEET

Cameron high trackmen won a three-way meet from Temple and Taylor here Friday afternoon with 67 points. Temple scored 54, Taylor 30. Rockdale's team failed to appear.

Garrett of Cameron was high scorer with first in the high hurdles, pole vault and high jump and second in the shot put and discus. His total was 21 points.

Wesson of Temple was second with 14 1-4 points scored with first in shot and discus, second in javelin and a share in winning the mile relay.

Wildcat Coach Bennie Zinn said last night that the Cameron meet yesterday will probably be the last for his charges before the district meet at Georgetown, April 10.

LOCAL WOODMEN TO ATTEND CONVENTION

Cameron delegates to the Head Camp convention of the Woodmen of the World Life Insurance Association at Abilene on April 15, 16 and 17 were looking forward today to one of the greatest Women meetings ever held in this jurisdiction.

Local delegates are T. A. Howell and W. G. Gillis and their alternates, H. N. Tate and August Horstmann. In addition to the appointed delegates, a number of local Women plan to attend unofficially. They include J. H. Weis and W. A. Hendrichsen.

Reports from the convention city indicate that a record attendance is expected. Practically all camps in Texas will be represented at the convention, according to R. E. Miller, State Manager of the jurisdiction.

Twenty-five Head Camp Conventions, scattered all over the nation, are scheduled during March, April and May. At each of the meetings, delegates will be elected to represent the jurisdiction at the Sovereign Camp Convention, the supreme representative legislative body of the Woodmen of the World, which will meet later in the year.

Will Celebrate Founding of Land Bank at Houston

Houston, March 16.—A state wide celebration marking the twentieth anniversary of the founding of the Federal Land Bank of Houston is planned for Saturday, April 3, according to A. C. Williams, President of the Bank and General Agent of the Farm Credit Administration of Houston.

"Twenty years ago on that date the charter of the Federal Land Bank of Houston was signed," Mr. Williams said, "and shortly thereafter the first National Farm Loan Association of Texas was organized. During the twenty year period this farmers' own bank, through the co-operative National Farm Loan Associations, has made approximately 90,000 loans aggregating more than \$310,000,000 to Texas farmers and stockmen."

stockmen."

The anniversary celebration will include a radio program broadcast over the facilities of the Texas Quality Network and other entertainment features, Mr. Williams said.

Meetings will be held simultaneously by National Farm Loan Associations in all parts of the state on the anniversary date in order to allow the groups to hear the broadcast as well as to enjoy local programs.

Rockdale Liquor Store Is Robbed

Rockdale, March 18—The Plaza cafe and package store, owned by J. T. Simmons, was robbed here sometime Wednesday night, when \$20 in cash and liquor was stolen.

The burglars made their entrance by rope through the skylight of the cafe, then use a brace and bit to bore their way into the package store. Officers expected an arrest soon.

Recently the Rockdale public school building and the William Cameron lumber company were pilaged, but nothing was missing. The burglars were evidently looking for cash only.

Number Receiving Age Pension Here On The Increase

Although only 25 aged people who were stricken from the pension rolls in January, have been restored, the number receiving aid from the state, has been increased by more than 100 in the past sixty days, a report to the county clerk here shows.

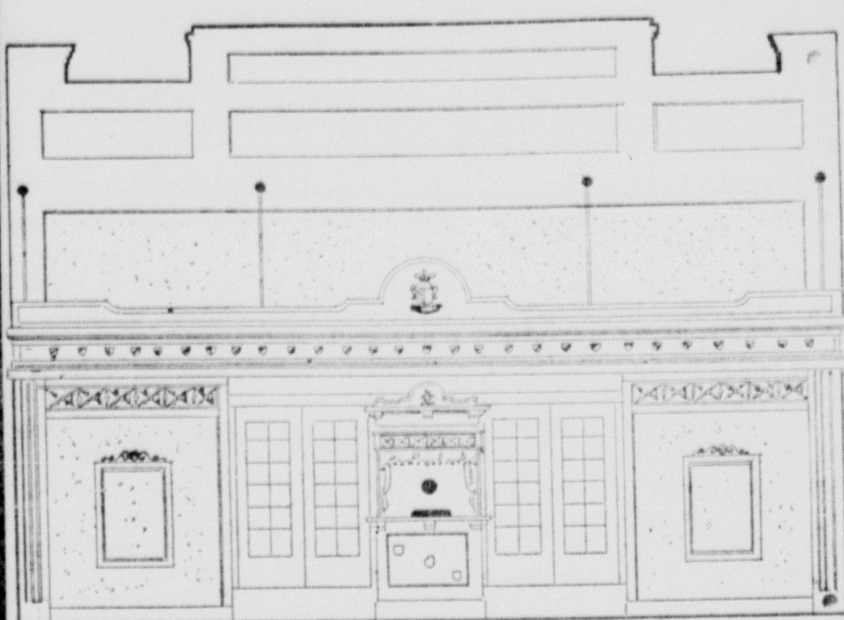

The report shows that 932 are receiving aid, 621 of this number are whites and 309 are negroes. Only three Mexicans have been able to get their pensions. The total amount of money distributed in March was around \$12,000.

Investigations continue. Many cases sent back for re-investigation have been reported again and while the state has no funds with which to pay the pension bill, the present legislature may submit a sales tax proposal to the people.

NOTICE TO DOG OWNERS

Vaccination will continue until all dogs in the City have been immunized.

A new and more stringent regulation has been made by the City. Last year 410 dogs were vaccinated at \$1.50 per head. Only 115 were paid and the medicine alone cost \$85. It will be seen that this policy was not successful.

Beginning Monday, March 15, the crew in charge of vaccination will call at the homes of all dog owners. If the owners do not have the price for vaccination their dog will be taken and placed in the pound where he will be kept for 10 days. If after that date the fee is not paid and the dog redeemed they will be disposed of. In addition a charge for keep will be made on each day the dog is in pound.

TAKE NOTE—No dog will be excepted. Dogs that run upon the street, in yards or pets kept in the homes, will be vaccinated, all alike, for each are capable of carrying the dread disease of rabies.

Your co-operation is asked so that the danger to human life may be avoided by vaccination of all dogs in the city.

WHO'S WHO IN THE SENIOR CLASS

Virginia Compton

Virginia Compton, a most active member of the senior class, has been in the Cameron schools for 12 years. She is one of the few that attended kindergarten in the Ada Henderson school building.

During her freshman year she was a member of the Home Economics Club. The next two years she was an active member of the Dramatic Club. Virginia was leader of the pep squad last fall.

Virginia plans to study business after she graduates, but she hasn't picked the school yet.

HERMAN GERICK

Herman Gerick started to Yoe High this past fall and played football, to put it mildly. He says the first time it ever occurred to him to kick a ball around was this fall. He had never played football before, as most boys do, it seems, and didn't know a thing about the game, the more glory to him.

He wants to go to John Tarlton, and major in mathematics, and then become a coach, he doesn't seem to care what kind. Here in Yoe High, however, his hardest course is English, and his favorite teacher Miss Bloebaum, his favorite book Cimmeron. Herman is eighteen years old and six feet one inch tall.

The longer your property is neglected the faster it depreciates. That is why it is wise to keep a close check on needed repairs. The sooner you make them the less it costs. What you save is added profit.

YOU ARE PAYING FOR REPAIRS
Why Not Make Them?

Why is it some buildings are almost as good as new after 50 years of service, while others are practically worthless at the end of 15 years? It is merely a matter of proper upkeep. You pay for repairs whether you make them or not.

Our Town

"We are going to let the cows do the work while we sleep," she said with that twinkling Irish wit of hers that is so reminding of her father, Jedd Ely, and her sisters.

The one-time village girl is enthusiastic over her brawny husband. "Joe Gregg batted .318 last season but I believe he will do better than .330 this season," she said.

Mrs. Moore is an enthusiastic baseball fan—just as she should be—for who wouldn't be if their husband was one of the shining lights in New York's athletic whirl. She misses few of the Giant home games and saw every one of the recent World Series clashes.

She's quite an athlete—or was, rather. While attending Gause school she played a "mean" third base.

From the kerosene lamp lighted Gause to the many-hued lights of New York—made in one step by a country boy and girl who believed in what a "pigtail pullin'" started.

COTTON REPORT

Milam county produced only 26,592 bales of cotton according to the report of Ray O'Neill, special agent for the Department of Commerce. This figure is less than the crop of 1935 which was 27,270. The figures are for date prior to March 1 in each year.

Less Monthly Discomfort

Many women, who formerly suffered from a weak, run-down condition as a result of poor assimilation of food, say they benefited by taking CARDUI, a special medicine for women. They found it helped to increase the appetite and improve digestion, thereby bringing them more strength from their food.

Naturally there is less discomfort at monthly periods when the system has been strengthened and the various functions restored and regulated.

Cardui, praised by thousands of women, is well worth trying. Of course, if not benefited, consult a physician.

Used Car Sales Show Big Gains

Chevrolet dealers throughout the United States are going into their major selling season in the best position in regard to used cars that they have enjoyed in many months, figures released by the company showed this week.

A marked reduction has been made in the used car stocks on hand, as of the last reporting period, the figures revealed. This condition has been attributed to the functioning of Chevrolet's national used car department which has been in operation for over a year.

At the same time, dealers are looking forward to an even greater reduction in used car stocks through the operation of the new division of the sales department which will devote itself exclusively to used car sales under the leadership of W. G. Lewellen and T. H. Keating, new assistant general sales manager in charge of used cars.

The current reduction of the number of used cars now in dealers' hands was accomplished despite the heavy volume of new car sales in 1936, officials pointed out, and in the face of the unusually high volume of sales that followed the announcement of the 1937 models last November.

A reduction of several thousand in used cars stocks was accomplished over January of last year, the figures showed, and an additional reduction

of 30,000 was accomplished over February, 1936.

"Our dealers are in an enviable position to move new cars this spring," Mr. Keating declared, "and our used car organization has been set up in such a way as to give them every possible aid in maintaining that position through the balance of the year."
